Count the number of 20 numbers

```
1:  int number count, counter ,freq1, freq2, freq3
2:  while counter < 20
3:      If number == 1
4:          freq1 = freq1 + 1
5:      Else If number == 2
6:          freq2 = freq2 + 1
7:      Else If number == 3
8:          freq3 = freq3 + 1
9:      Else
10:         Print "Invalid Number"
11:     endif
12:     counter = counter + 1
13: endwhile
14: Print "Frequency of 1:", & freq1
15: Print "Frequency of 2:", & freq2
16: Print "Frequency of 3:", & freq3
```
